Color instructions on 3BH527

We do not know whether this would make a better upright picture than it would a horizontal, but likewise leave this to your judgment. On your old card 1452-30, inclosed we do not like the idea of cropping the top of the building so, perhaps, this may be better by putting a little more sky and a little more foreground in the new one and make it upright.

Remove all cars from in front of building, as well as the trash can and fireplug.

Coloring you use on old building is OK, although the retouching would indicate that the granite arches over the lower windows was held by black cement. There should not be any color difference as the cement used is a granite color. Curtains are tan color.

Doors and window trims are of oak (brown).
Roof is of green-gray slate coloring.

Color instruction on 3BH529

This card, properly made up, should be a wonderful seller. Girl in picture wears white dress, with bright red belt and buttons. Jet black hair and eyes. Endeavor to show the green grass showing through the blossoms in the lower left side of picture and blue sky showing through in the upper section. Twigs on the trees should be natural color and the buds should be reddish-pink coloring. This is what will make the card, and we are sure your artist can visualize from some kodachrome picture in your files, the exact shade we want ~~ix~~ for this bloom.
